

Instructions for homework on map of Regions of the Thirteen Colonies

MIDDLE COLONIES

- Label the four Middle colonies in pencil.
- Label Philadelphia. Make sure it is ON the Delaware River. The river is used to transport goods.
- Keep labels horizontal.
- Try not to use labeling lines – Just begin or end your label in the colony.
- If you have to use labeling line keep them
 - Use short lines
 - Keep them straight and never let them cross.
- Double check spelling!
- Blacken your labels with a THIN black marker (Sharpie works great)
 - Ball point pens don't work great.
- Color the region all in one color, being careful to stripe the area of Vermont to show that New Hampshire, a New England colony also claims it.
