Q.R. Codes

What is a Q.R. Code?

- A QR code is a *barcode square* that when scanned, will reveal a simple text, website link, an image, or an audio piece.

- You can use an i-phone, smartphone, or i-pad to scan the code.

What you need...

How to download a Q.R. code scanner...

● On your smartphone or i-pad…

● **Go to APP Score and search for QR Code and Barcode Reader**

Scan – QR Code and Barcode Reader   View More By This Developer
